2. DIA Metall has been informed that Promsgrionport will attempt to ship as much of the material as possible in November 1953. In October 1953 57 metric tons of ferro-molybdenum and 35 metric tons ferro-vanadium are to be shipped by Russia to East Germany.
3. According to the supplementary agreement of 3 April 1953, 1,600 metric tons of rolled wire for welding wire was to be shipped from the USSR to East Germany. Of this amount only 990 metric tons had been shipped as of 25 September 1953. The balance of the rolled wire was to be shipped during September 1953.
